nonprovisional	NO	\$1510	\$300	\$0	\$1810	07/23/2009

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE

Commissioner for Patents P.O. Box 1450 Alexandria, Virginia 22313-1450

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)

(application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 816 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 816 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (http://pair.uspto.gov).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

DETAILED ACTION

Remarks

This Office Action fully acknowledges Applicant's remarks filed on April 9th, 2009. Claims 12, 13, 16, 18-22, 25, 26, and 28 are allowed. Claims 1-11, 14, 15, 17, 23, 24, and 27 have been cancelled.

Applicant's amendments to claim 12 provide to place claims 12, 13, 16, 18-22, 26, and 28 in condition for allowance. Claim 25 is allowable as previously discussed on the record.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Brezner on April 13th, 2009.

The application has been amended as follows:

12. A method for treating a liquid sample stream, including at least one <u>a first</u> analyte species ion and matrix ion species of opposite charge to said one <u>first</u> analyte ion species, and for detecting said at least one <u>first</u> analyte in the liquid sample stream, said method comprising flowing said sample stream from an inlet in a flow-through

Application/Control Number: 10/653,032 Page 3

Art Unit: 1797

treatment channel to a sample stream outlet thereof, flowing a carrier liquid stream including a matrix ion species capture material through said flow-through channel to a carrier stream outlet thereof for removing said matrix ion species away from said at least one first analyte ion species, said sample stream and carrier liquid stream flowing substantially parallel to each other in said treatment channel and forming a liquid interface between them, said matrix ion species in said sample stream diffusing through said interface to contact and become bound by said capture material in aid carrier liquid by forming a salt or complex or by ion exchange so that the concentration of said matrix ion species at said outlet is at a substantially lower concentration than at said inlet, transporting the sample stream, but not the carrier stream, from said sample stream outlet, in a fluid conduit to a detector, and detecting said one first analyte ion species in said sample stream by said detector.

16. The method of claim 12, in which said sample stream comprises at least a second analyte ion species, said method further comprising separating said one <u>first</u> and second analyte ion species in said sample stream prior to flowing said sample stream to the treatment channel inlet.

Allowable Subject Matter

Claims 12, 13, 16, 18-22, 25, 26, and 28 are allowed.

The following is an examiner's statement of reasons for allowance: With regard to claims 12, 13, 16, 18-22, 26, and 28, the prior art of record, namely Yager (5,971,158) and Rocklin (4,751,189), do not teach or fairly suggest a method for treating a liquid sample stream as recited in claim 12, which includes transporting the sample stream, but not the carrier stream, from the sample stream outlet, in a fluid conduit to a detector, and detecting the at least one analyte species in the sample stream by the detector.

With regard to claim 25, the prior art of record, namely Yager (5,971,158) and Rocklin (4,751,189), do not teach or fairly suggest a method for treating a liquid sample stream including at least one analyte ion species and matrix ion species as recited in claim 25, which includes that the capture material binds the matrix ion species by forming a salt or complex. Yager and Rocklin in view of Yager disclose the binding of the analyte ion species to the capture material to form a complex in the product stream for detection and do not suggest binding the matrix ion species (i.e. the undesired particles) to the capture material. Further, Seidel et al. (6,153,393) discloses providing a reagent to eliminate interference by nonspecific interactions in immunoassays to avoid false-positive detection reactions. Seidel discloses a capture material for binding and forming a complex with the analyte ion species in order to reduce interference and false detection results, and does not teach or fairly suggest eliminating such interference by

Art Unit: 1797

binding the matrix ion species (i.e. the undesired particles for detection) to the reagent (capture material).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to NEIL TURK whose telephone number is (571)272-8914. The examiner can normally be reached on M-F, 9-630.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jill Warden can be reached on 571-272-1267. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
